Professional Summary

Experienced Full Stack Developer **with around 5 years of hands-on experience in designing, developing, and deploying robust web and mobile applications. Proficient in Next.js, React.js, React Native, Angular, TypeScript, and backend technologies, with a strong foundation in building and optimizing innovative insurance applications. Committed to delivering high-quality, scalable code to production while ensuring seamless user experiences and maintainable technical infrastructure. Passionate about full stack development, modern architectures, and continuous performance improvement.**

Technical Skills

Frontend

- TypeScript, JavaScript, HTML, CSS, Sass, Bootstrap, Tailwind CSS, Material UI, Flexbox, CSS Grid, Kendo UI, jQuery, Chart.js
- Frameworks & Libraries:** React.js, Next.js, AngularJS, React Native, Redux,

Backend

- Node.js, Express.js, Nest.js, REST APIs, Next.js (API routes)
- LangChain, OpenAI API Integration, Prompt Engineering

Databases

- PostgreSQL, MySQL, MongoDB, Firebase, Prisma, Drizzle ORM
- Tools: PgAdmin4, MongoDB Compass, MongoDB Atlas, SQL Server Management Studio

Security

- OAuth2, JWT Authentication
- Tools & Platforms :VS Code, WebStorm, Android Studio, FileZilla, Git, GitLab, Bitbucket, Anydesk, Rustdesk, Turing Labeling Tool, Postman

Project Management & Collaboration

- Jira, Trello, ClickUp, Slack, Skype
 - Agile, Scrum, Pair Programming
-

Education

Bachelor of Science in Computer Science

University of South Asia, Lahore | 2018 - 2022

- Specialization: **Software Engineering and Web Development**

Professional Experience

Fullstack Engineer

Artillence | Lahore, Pakistan | Oct 2024 - Present

- Led a **fullstack team of 4 developers**, ensuring best practices in code quality, security, and performance.
- Developed and maintained the company's SaaS **dashboard using React + TypeScript**.
- Implemented **REST APIs in PHP Laravel**, improving response times by **30%**.
- Built a **custom component library** for UI consistency across products.
- Ensured **SOC 2 Type 2 compliance** by integrating robust security practices.
- Conducted **weekly code reviews, standups, and mentoring sessions** for junior developers.

Software Engineer

eSoftage | Lahore, Pakistan | May 2023 – Sep 2024

- Developed Multiple Projects at eSoftage, Worked on map-based, referral, and MS Word-like editor modules.
- Lead projects with React-Native, Angular.js, and Postgress, managing real-time data using REST APIs. Facilitated seamless collaboration and innovation.
- Leveraged technologies like React-Native, React.js, Angular and Postgress for successful outcomes. Guided and mentored the team, fostering continuous learning and adaptation.
- Lead project and responsible for deliver on time.
- Manage frontend team and Collaborate with backend team and designers as well.
- Develop logical UI, integrate backend APIs, Integrate third party services like stripe, dots, Apple Pay etc.

Software Engineer

Xerobit Technology Ltd. | Dubai, UAE | Oct 2021 - Apr 2023

- Developed and maintained web applications using React Js, Next Js and Node Js.
- Participated in the full software development lifecycle, including coding, testing, and deployment.
- Troubleshoot and debugged issues, implemented new features, and enhanced applications based on client requirements.
- Showed a strong understanding of JavaScript fundamentals.
- Collaborated effectively at XeroBit Technologies, engaging in brainstorming sessions, sharing insights, and fostering teamwork.
- Contributed to team projects and achieved project milestones.

Junior Software Engineer

RedFire AI | Lahore, Pakisan | Jan 2021 – Sep 2021

- Assisted in developing a **customer analytics dashboard** using React and PHP.
- Built **API endpoints for data visualization** using Nodejs.
- Collaborated with designers to improve **UX/UI consistency**.
- Wrote **technical documentation** and onboarded new developers.

Projects & Contributions

Snap Promise (Web & Mobile)

- Led development of web app (Angular) and mobile app (React Native).
- Integrated REST APIs, Google/Apple Auth, Stripe, and Recoil.
- Deployed on Ubuntu, Google Play Console, and App Store Connect.

Instant Space

- Full stack development with React and Node.js.
- Built chat, map, and multilingual modules using React-Redux.

Grow and Share

- Developed a PWA job-matching platform with React, Node.js, and MongoDB.
- Included advanced search, map integration, and Stripe subscriptions.

Serve on Route

- Built parcel service mobile app with React Native, Nest.js, and MongoDB.
- Integrated Stripe, real-time chat (Socket.io), and map functionality.

Lemur

- Built a Next.js app to fetch and store healthcare facilities by ZIP code using the Google Maps API.
- Integrated Firecrawl to scrape facility website data and display enriched metadata.
- Developed custom APIs for data management and retrieval.

Recruiter AI

- Developed a resume parser using OpenAI to analyze uploaded resumes.
- Used Firecrawl to scrape user-linked profiles (e.g., GitHub) and RapidAPI for LinkedIn data.
- Evaluated job-candidate match scores using OpenAI's semantic analysis.

Edvenity

- Designed a multi-role platform (Recruiter, User, Admin).
- Recruiters post jobs; users apply and are matched using OpenAI scoring.
- Integrated AI bot to schedule, evaluate, and report interviews back to recruiters.
